VOLUME A200 (1973) No. 2 MAY 1973

NUCLEAR PHYSICS

Journal devoted to the experimental and theoretical study of the fundamental constituents of matter and their interactions

Editor: L. Rosenfeld - Copenhagen

Associate Editors: H.H. Barschall, Livermore; G. Baym, Urbana; J. Bondorf, Copenhagen; D.M. Brink, Oxford; B. Deutch, Aarhus; J.P. Elliott, Sussex; T.E.O. Ericson, Cern; V. Gillet, Saclay; O. Hansen, Copenhagen; O. Nathan, Copenhagen; D. Robson, Tallahassee; P.H. Stelson, Oak Ridge; T.A. Tombrello, Pasadena; C. van der Leun, Utrecht; D.H. Wilkinson, Oxford; A. Winther, Copenhagen

Technical Editor: W. Hass, Copenhagen

NUCLEAR PHYSICS A 200, No. 2

This is to inform you that
NUCLEAR PHYSICS A 200, No. 3 (containing the Author Index of volumes A 151 - A 200) will appear around September 1973, and that
NUCLEAR PHYSICS A 200, No. 1 (containing the Author Index of volumes 1 - A 100) will appear around November 1973.

research policy

A journal devoted to research policy, research management, and planning

This journal deals both with the problems of research and development policy in industry and with the research policy aspects of governmental science policy. Research management has received considerable attention in the literature during the past decades. On the other hand research policy has received much less attention, though it will become increasingly important in the coming years.

In industrial research nowadays the main problem is how to determine its appropriate volume and scope, how to bring it in line with the long-term planning of the company and how to integrate it with other operations.

In government research policy, the key question is the determination of priorities.

Increasing social concern with the short and long-term consequences of scientific research and technical innovation has led to a rapid growth of interest in policy for research. It has also led to a growing need to relate the private decisions of the individual researcher, laboratory or firm to a wider social context in which the full social costs and benefits of an innovation may find expression. This embraces both R & D project and programme evaluation and decision-making in industry as well as in government and universities.

The journal RESEARCH POLICY provides a forum for the literature dealing with the problems of R & D policy, as well as for the ensuing policy debate in an international context.

Editors:

C. FREEMAN and T. C. SINCLAIR,
Science Policy Research
Unit, University of Sussex,
Nuffield Building, Falmer,
Brighton EN1 9RF, Sussex,
Great Britain.

H. KRAUCH and R. COENEN,
Studiengruppe fur
Systemforschung,
Bergstrasse 143, 69 Heidelberg,
Germany.

Orders and requests for specimen copies may be sent to your usual supplier or directly to the Publisher.

RESEARCH POLICY is published four times per year. The subscription price is Dfl. 92.00 or about US$ 28.75 per volume. Volume 1 – 1972; Volume 2 – 1973
